

## **THE IMPORT OF FEATHERS AND DOWN INTO INDIA**

Statement “one” below must always be selected. (The US must be free of HPNAI at the time of export.)

At least one of the options in statement “two” must also be selected. NAI is “notifiable avian influenza” and is composed of both “highly pathogenic notifiable avian influenza” (HPNAI) and low pathogenicity notifiable avian influenza (LPNAI).

Summarizing the requirement for NAI freedom, the country must be free of HPNAI. If the state is not also free of LPNAI, then the products must be treated to inactivate NAI.

### **REQUIRED CERTIFICATIONS FOR THE IMPORT OF FEATHERS AND DOWN INTO INDIA**

1. \_\_\_\_ The country of origin is free of HPNAI; AND
2. \_\_\_\_ The country of origin is free of NAI; OR  
\_\_\_\_ The certified material has been processed to ensure the destruction of the NAI virus; and the necessary precautions were taken to avoid contact of the product with any source of NAI virus.
